Instructions
10 Digi Pets in 1

INTRODUCTION
You have a choice of 10 different Digi Pets to call your own and care for! Your choices are:

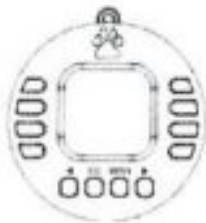
CONTROL BUTTONS

◄ --to move left on game choices.
--to move down on letter and number entries.

► --to move right on game choices.
--to move up on letter and number entries.

ESC --to exit out of game modes.

ENTER --to confirm selections.



STARTUP
Pull out the plastic tab from the side of the game to activate the game! You are automatically sent into the time setting screen.

SETTING THE TIME
It's important that you set the correct time so that your pet can respond to a natural schedule.

Use the ◄ and ► buttons to move through the HOURS.
Press **ENTER** button to confirm the correct hour.

Now use the ◄ and ► buttons to move through the MINUTES.
Press **ENTER** to confirm the correct minute.

Complete the time setting by using ◄ and ► to move between AM and PM.
Press **ENTER** to confirm the correct time of day, AM or PM.

Make a mistake while setting the time? Press the **ESC** button to move backwards to the previous time selection and edit the time.

When changing the time, you can also use the ◄ button to backspace and delete a previous time setting.

CHOOSE YOUR PET
Now it's time to select which of the 10 pets you want to take care of! Use the ◄ and ► buttons to move through the 10 pets.

Use the **ENTER** button to confirm your pet choice! Then you will hear music and your pet will be born!

NAME YOUR PET
Isn't your pet cute? Now it's time to name your pet! Use the ◄ and ► buttons to move through all the letters of the alphabet to spell out a name for your pet! If you want to use numbers, you can do that, too, with the same buttons.

When you reach a letter or number you want, press the **ENTER** button. That letter or number will be entered and you will move to the next space for selection of the next letter or number for your pet's name!

Six spaces are available for the pet's name.

By confirming the last letter of your pet's name, the game will automatically begin!

MENU PLAY OPTIONS
There are eight menu functions altogether. But depending on the health of your pet, not all functions are available at all times.

At any time, you can press the ◄ or ► buttons to scroll through the available options and then press the **ENTER** button to confirm your selection. While you're playing an activity or function, you can press the **ESC** button to escape (leave) that activity or function. Functions that are not currently available to your pet will still be shown on the screen; however when you choose that particular function, there will be a reject sound.

Listen for "beeps" to tell you that your pet needs something. What does it need? It's up to you to figure it out! Just like with a real pet!

OPTION 1: INDEX
After you select the index option, you can press the ◄ and ► buttons to move through the health indexes for your pet, which are: Weight, Strength, Hunger, Happiness, Discipline, Energy, Exercise , Age, Pause.

Depending on how full the health levels are, certain menu play options will or will not be available. It's just like caring for a real pet – you need to provide what your pet needs!

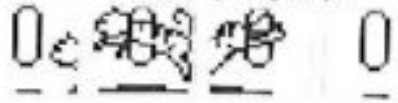
<u>Special Pause Feature</u>
When you move to the pause feature, you can press **ENTER** to pause your game. Exiting a pause is easy – just press any of the four control buttons! The pause feature is a great feature for when you are away from your pet for several hours at a time, for example, when you go to school.

OPTION 2: FEED
Your pet likes to eat pizza and drink milk. Use the ◄ and ► buttons to move to FEED, then press **ENTER**. You now can use the ◄ and ► buttons to move between pizza and milk. Press **ENTER** to make your selection!

Press **ESC** to escape the feed mode.

OPTION 3: TRAIN
Every pet – real or virtual – needs training! Move to the training icon with ◄ and ► buttons. Then press **ENTER**.

Your pet will train by jumping through hoops!



OPTION 4: PLAY
Play with your pet! It's fun for you and fun for your pet. After using the ◄ and ► buttons to reach the play option, press **ENTER** and it's time to fly a kite!

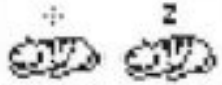
OPTION 5: EDUCATION (ED)
Your pet likes to read! Reading is fun! Use the ◄ and ► buttons to reach the ED option and then press **ENTER** and see the pages of the book turn! You and your pet are getting smarter!

OPTION 6: DOCTOR (DR)
If you don't take good care of your pet, it will have to go to the doctor! If you think your pet needs to go to the doctor, use the ◄ and ► buttons to get to the option and press **ENTER**. Remember, sometimes your pet doesn't need something – when that happens, the activity isn't available. So if you try to go to the doctor and can't get there, don't worry, it just means your pet is healthy!

OPTION 7: CLEAN
When your pet leaves poop on the screen, you need to clean it up! The poop is very hard to miss on screen, so you'll know when it's there! Press the ◄ and ► buttons to reach the cleaning activity and press **ENTER** to go to the toilet and clean up the mess!

OPTION 8: LIGHT
As your pet gets older, it needs different amounts of sleep. Use the ◄ and ► buttons to reach the light and press **ENTER**. Then use the ◄ and ► to move between the LIGHT ON and LIGHT OFF icons and press **ENTER**, depending on whether you want your pet to sleep or you want to wake it up. Turn off the light for sleeping; turn on the light for waking up.

When your pet falls asleep on its own, it's your responsibility to turn off the light for better sleep. If your pet is staying up too late, it's up to you to turn off the light to let it know that it needs its rest!

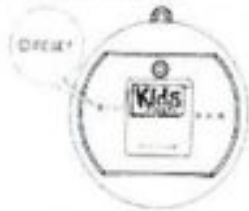


Remember, you can wake up your pet at any time!

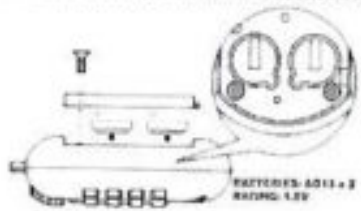
KEEPING YOUR PET HEALTHY
Be sure your pet gets plenty of food and water. Keep your pet clean – especially after it makes a poop! Try to teach your pet a balanced lifestyle with plenty of training, play time and reading! If you think your pet is sick, take it to the doctor right away! During the daytime, a nap or two is all right, but don't give your pet too much sleep time during the day, or else it will throw off its regular sleep pattern at night!

When you don't take care of your pet, it waves goodbye and the game is over. The game will beep until you press the reset button on the back. You are now ready to start a new game !

RESET
Press the reset button on the back of the game to reset the game and start over. You can play with a different kind of animal every time!



CHANGING THE BATTERIES
To change the batteries, remove the battery compartment cover at the back of the game by unscrewing the cover. Insert 2 x AG13 cell batteries as shown in the picture.



CAUTION

- Batteries should be replaced by an adult.
- Requires 2 x AG13 cell batteries (included).
- Set the batteries at the correct polarity, noticing (+) and (-) marks.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon zinc) or rechargeable (nickel cadmium) batteries.
- If batteries are misused, there is a possibility of heat generation, explosion and battery leakage.
- Always follow Toy and Battery Manufacturer's instructions.
- Contains Mercury, Don't Put In Trash. Recycle or Dispose as Hazardous Waste.

For ages: 6 & up.
